

StateFloor®

HIGH PERFORMANCE
UNDER SLAB INSULATION

statefloor

StateFloor®

Cost Effective and fast to install under slab product.
Delivers High R rating*. Resistant to Vermin
No CFCs or Ozone depleting properties.
Will not breakdown over time.

StateFloor®

StateFloor from Allstate Polystyrene is a new innovative high performing insulation panel that is designed for use in both commercial and domestic applications installed under the ground slab.

StateFloor is a unique product to Allstate Polystyrene and offers a cost effective alternative to current products. StateFloor is a high density EPS product that creates a thermal barrier under slab, providing insulation for the building.

StateFloor contributes to the overall R-Value of the building and assists in the 'Total insulation' of your home.

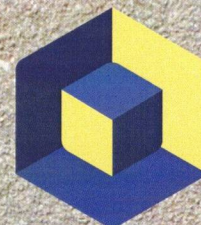

FEATURES:

- Easy to install.
- High Density.
- Creates a thermal Barrier to reduce heat loss from the slab.
- Available in lengths up to 5 metres, reducing insulation times.

BENEFITS:

- Cost Effective and fast to install under slab product.
- Delivers High R-Value rating.
- Resistant to Vermin.
- No CFC's or Ozone depleting properties.
- Will not breakdown over time.
- Reduction in labour cost due to sheet sizes.

R Value	Product	Thickness
R1.0	StateFloor	30mm
R1.5	StateFloor	45mm
R2.0	StateFloor	75mm
R2.5	StateFloor	100mm
